

## RoHS and REACH Certificate of Compliance

### RoHS

This is to certify that all AE Techron products and components are RoHS 3 compliant, meet the requirements of the RoHS 3 Directive 2015/863/EU directive, and do not contain the substances listed in the table below in concentrations exceeding the Maximum Concentration Value (MCV).

Our suppliers have demonstrated compliance to the material restrictions of RoHS 3 by providing written and/or website accessible declarations for all parts and materials used to manufacture these AE Techron products.

Substances	Maximum Threshold Limit
Cadmium (Cd)	<100 PPM
Lead (Pb)	<1000 PPM
Mercury (Hg)	<100 PPM
Hexavalent Chromium (Cr6+)	<1000 PPM
Polybrominated Biphenyls (PBB)	<1000 PPM
Polybrominated Diphenyl Ethers (PBDE)	<1000 PPM
Bis (2-Ethylhexyl) Phthalate (DEHP)	<1000 PPM
Butyl Benzyl Phthalate (BBP)	<1000 PPM
Dibutyl Phthalate (DBP)	<1000 PPM
Diisobutyl Phthalate (DIBP)	<1000 PPM

AE Techron is committed to eliminating the use of hazardous substances in the materials, components, manufacturing, and packaging of our amplifiers and other test and measurement products in strict accordance with the RoHS 3 directive. Based on the information provided by our suppliers, and the best of our knowledge, all of our products are RoHS 3 compliant and conform to the European Union Restrictions of the use of Hazardous Substances.

### REACH

AE Techron is an article manufacturer, manufacturing electronic equipment. We have examined the bills of materials, purchasing and shipping levels and have concluded that as an article manufacturer, the quantities of potential substances that are shipped are far under the one tonne limit, and the fact that none are released from the enclosures, exempts us from the registering and reporting under REACH.
